

Mini Crawlers

Used Mini Crawler Everett - We have designed several programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who needs certification or re-certification, and for inexperienced operator who is looking for work in the business. Positions for crane operators are in demand due to their high rates of pay. Crane operators are amongst the highest paid of whichever operator of heavy machine. Our Crane Training Schools feature training and instruction for different mobile cranes. Course content comprises Wire Rope, Crane Set-up, Lift Planning, Load Dynamics, Load Charts, Rigging, and Signaling. The Crane Training School program is suitable for operators, riggers and supervisors. Course materials consist of an informative and manual hand-outs. The illustrated safety instruction manual consists of one hundred to two hundred fifty pages, depending on the course, of essential and useful material. Course materials consist of load charts and load chart exercises for the crane with which the individual training is working. Hands-On Safety Training would take up more than half of the course curriculum. The practical training part is the most useful method to developing and improving personal skill levels. Just qualified journeyman crane instructors are selected to teach the courses. Our instructors have many years of experience in the industry. For all the course we provide, we can include optional testing mechanisms to customize your training. A skills test is normally administered for programs which include H.O.S.T. Trainees would be graded and tested. Certification Training Programs: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Training and Certification; Certification & Testing; and In-The-Seat Training. Industry standards of practice are evolving as new business requirements surface. There are continual updates to legislation and regulations. Improvements in technology and equipment continue to be made. Industry data analysis and collection detect changing trends. Members maintain the privilege of managing their certifications and training programs. Mobile device alerts keep members abreast of workplace and personal safety news.
